

The Fethiye Film Festival is starting!!!

Fethiye is realizing its dream of establishing a permanent place for itself in the world of cinema with the Fethiye Film Festival, which will be held for the first time this year.

The Fethiye Film Festival (FFF), which will take place on December 7-8-9-10, 2023, is receiving great interest and support from the cinema community.

Nearly 150 films have been submitted to the festival, organized by FEFSAD (Fethiye Photography and Cinema Arts Association). Following the submission period, which ended on October 20, 2023, the film selection committee began evaluating the submitted films.

The program for the screenings of experimental, animated, documentary, and fiction films, both short and feature-length, will be announced on November 15, 2023. The films to be screened at the festival will meet the audience with the sponsorship of Aksin Cinemas. During the free screenings, there will be Q&A sessions and discussions with specially invited directors.

In addition to film screenings, workshops, talks, and presentations will be held by academics, directors, and cinema veterans who are experts in their field. Throughout the festival, industry professionals will meet with cinema enthusiasts at various venues.

Aiming to gain an international identity and continuity in 2024, the Fethiye Film Festival seeks to breathe new life into Fethiye's cultural and artistic life, instill a love of cinema in the people of Fethiye, especially its youth, and become a festival embraced by the entire city.

We would be delighted to have you, our valued members of the press, join us and feel your support by our side.
